Chrysanthemum Cuttings

FOR THE 1948 SEASON

More and more growers all over the country are learning the advantages of buying rooted or unrooted chrysanthemum cuttings from a good reliable source—instead of starting from scratch to grow their own.

There are various reasons for this trend. Foremost among these is the fact that such cuttings are disease-free, sturdy, *proven* as to performance and quality, thereby eliminating the headaches and problems of breeding and propagation which plague the average grower. All that work and trouble has been handled for him by specialists. Our growers are the most widely recognized leaders in this field.

We offer herewith rooted and unrooted cuttings in increasing volume for the 1948 season. Orders must be placed at least a month in advance of the requested delivery date. Please indicate the earliest date delivery will be acceptable and the maximum number of cuttings that can be handled in a single shipment. In all cases where exact delivery date cannot be met, an estimate of expected delivery of each variety will be given on the acknowledgement of the order.

NEW VARIETIES

Constellation

(YODER BROS., INC.) YELLOW DECORATIVE — NOVEMBER 5

The two outstanding features of this variety are its uniformity in response to black cloth shading and its dependability as a high producer of quality flowers. Constellation has consistently yielded as high as the most productive of the commercial varieties. With the use of light and shade we recommend this variety for flowering from May 5 to November 15.

Honeycomb

(YODER BROS., INC.) YELLOW POMPON — SEPTEMBER 25

A small, perfectly formed pompon of intense golden yellow. The flowers are born on well-formed sprays, nearly ideal for cut flowers of medium 18-22-inch stems.

Honeycomb is a marked advance over the widely grown and well known Early Yellow and Pomponette in that the habit of growth is more vigorous and productive, the flowering season is equally early and the quality and color of the flower is such as to closely rival many greenhouse grown counterparts.

Honeycomb will shape up to a fine pot plant or add a distinctive note of formality and rich color to the fall garden scene.

Seneca

(YODER BROS., INC.)

ORANGE BRONZE DECORATIVE — NOVEMBER 1

The earliest bronze pompon in the cloth house shading program. It holds its color well. It is a better producer than Navaho. It is the most reliable bronze pompon for early shading.

FOR 1948 PLANTING

Serenity

(YODER BROS., INC.) WHITE DAISY — SEPTEMBER 25

The major requirements of a good garden chrysanthemum are early, showy, flowers borne on rigid compact, bushy plants. A degree of resistance to frost winter kill, insects and diseases is equally desirable. Serenity combines all of these qualities plus a uniformity of growth and flowering seldom exceeded by an outdoor chrysanthemum. It is a beautiful creamy white, heavily petalled daisy that opens rapidly to a real show of literally hundreds of blooms.

As a pot plant, it resembles the bushy, compactness of Judith Anderson and Pomponette. The shapely plant, because of its strength and rigidity makes a beautiful border or low hedge.

Spellbound

(YODER BROS., INC.) LAVENDER PINK DECORATIVE — SEPTEMBER 25

A striking 3-inch decorative that combines the beauty and grace of Lavender Lady with the durability and substance of Jean Treadway. Spellbound captivates the eye with its gloss and finish derived from Burgundy. The plant is a solid, compact bush attaining a height of 24 inches. The characteristic, uniformly planed flower development contributes to a wonderfully showy mass effect that cannot fail to greatly enhance the early fall garden. The habit of growth is equally ideal for pot plant culture.

A small, decorative, lavender pink pompon that flowers naturally October 20. Caroline Yosick gives a sharp and uniform response to black cloth shade and its major value is for August and September flowering. It compliments and completes an important trio for early shading—Caroline Yosick, Pinocchio, and Gold Coast. It has a very dependable growth habit, does not crown like Jewell, and has a much more rigid stem than Jessie and Pink Dot. The small, decorative flower of Caroline Yosick possesses excellent color-holding quality, and is very satisfactory under even the earliest shadings. Its color is not outstanding in natural daylight but brightens or softens remarkably under artificial lights.

Caroline Yosick

(SHELBY FLORAL)

NEW VARIETIES

Tally-Ho

(YODER BROS., INC.) YELLOW INTERMEDIATE POMPON — NOVEMBER 15

A quality pompon. It is very similar in many respects to the variety Princeton and compliments this variety in being a clear yellow and a well-rounded hard pompon.

Yellow Queen

(YODER BROS., INC.) YELLOW SPORT OF ORCHID QUEEN — NOVEMBER 10

Highly recommended for natural flowering and delayed flowering into Thanksgiving season by the use of artificial light.

Red Rust

(DEPETRIS)

An exquisitely colored, well rounded, large pompon blooming November 5. The color is a beautiful blend of orange, red and chrome bronze similar to Natoma. The habit of growth is clean, uniform, and vigorous with excellent foliage and well branched sprays. The scintillating color is an epoch in chrysanthemum breeding but it is sensitive to intense light and is, therefore, best adapted to later greenhouse shadings and natural flowering. It possesses greater vigor and is easier to grow than Natoma. The production excels that of Navaho. In its natural season Red Rust should become a very important variety in creating greater consumer appeal and stimulating interest in intrinsically vivid and useful colors.

NEW INTRODUCTIONS

MRS. VIRGINIA IRWIN. (George P. Barr)

New sport of Giant Virginia is a rose pink in color similar to Virginia Rose, but with stronger habit of growth and with large, full textured flowers double the size (actual petal count) of the old Virginia with strong calyx and free of any tendency to splitting. Production compares favorably with principal commercial varieties grown today. It has received a number of awards including the N.Y. F.C. Gold Medal.

	Price Per 100	Per 1000
	\$20.00	\$150.00

Restricted for Three Years
(to Dec. 1950)

SCHAEFER'S PINK. (Charles A. Schaefer)

Good dark pink seedling, cross of King Cardinal and unnamed seedling. Has good stiff stem, does not split.

20.00	150.00
-------	--------

Restricted for Three Years

Terms of Sale

Chrysanthemum Cuttings

1. Fifty rooted cuttings of a variety is the minimum that can be supplied. More than 50 of a variety must be in multiples of 50.
2. Two per cent discount permitted on payment within 10 days from invoice date. Sixty days net.
3. Shipments are forwarded by best carrier in our judgment unless otherwise specified by customer.
4. First-class stock is carefully packed and we hold good order receipt from transportation company. Our responsibility ceases thereafter. If the stock reaches you in bad condition, notify agent and bring claim against the delivery company for damages by their negligence. No allowance for this cause can or will be made by us.
5. All items in this list are offered subject to crop deliveries or failures, and being unsold on receipt of order, and other conditions beyond our control, and the prices are subject to change without notice.
6. While we exercise the greatest care to have all seeds pure and reliable, and all bulbs, plants and cuttings true to name, we do not give any warranty, express or implied, and will not be in any way responsible for the crop. If purchaser does not accept goods on these terms, they must be returned at once and money will be refunded. Our liability is limited to purchase price of product.
